

European Network on Regional Labour Market Monitoring

Shortages of Labour and Skills:

Insights and Evidence to Inform Strategies
Relevant to Regional and Local Labour
Markets and Labour Market Observatories

19th Annual Meeting of the European
Network on Regional Labour Market
Monitoring (EN RLMM)

5. – 6. September 2024
Lugano, Switzerland

Conference hosted by

Università della Svizzera italiana (USI) & the
State Secretariat for Economic Affairs (SECO),
Lugano, Switzerland
and IWAK Goethe University Frankfurt a. M.,
Germany
in Partnership with the
OECD LEED-Programme

www.regionallabourmarketmonitoring.net

Dear partners of the European Network on Regional Labour Market Monitoring (EN RLMM),

as general Secretary of the Università della Svizzera italiana

I welcome you to the conference on “Shortages of Labour and Skills: Insights and Evidence to Inform Strategies Relevant to Regional and Local Labour Markets and Labour Market Observatories”.

Together, you will delve into the multifaceted issues surrounding labour and skills shortages within regional and local labour markets and the role of labour market observatories in addressing these challenges. The organizers aim to gain a comprehensive understanding of the underlying causes, impact, and potential solutions to these critical issues through engaging sessions, workshops, and panel discussions.

The esteemed speakers and experts are eager to share their invaluable insights, research findings, and best practices in managing labour and skills shortages. Equally, they value your experiences and look forward to your contributions.

This conference is a unique opportunity for you to implement actionable strategies in your respective organisations and communities, and to network with professionals, researchers, and policymakers.

We deeply appreciate your presence at this conference. Your participation is not only valuable but also essential in our collective efforts to address the challenges of labour and skills shortages. We are confident that the knowledge and connections you gain will empower you to make a meaningful contribution. Thank you for joining us, and we eagerly anticipate a productive and enriching event.

The EN RLMM Annual Meeting will also be an opportunity to introduce participants to the quality of this territory and to the academic institute IRE, within the Università della Svizzera italiana. IRE conducts research in various areas of regional and urban economics, including regional development, growth, competitiveness, labour market, and migration, and is known for its applied economic research and services to the economy and institutions in Ticino.

Giovanni Zavaritt
General secretary
Università della Svizzera italiana

Dear colleagues and members of the EN RLMM,

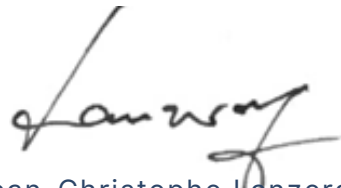

the high demand for skilled workers over a long period has become one of the great challenges of economies throughout Europe. The economic recovery following the Covid pandemic has led to an increase in employment and a decrease in unemployment in numerous sectors. While it is not surprising that the demand for labor and skilled workers increases during economic upturns, the recent economic slowdown has not led to a significant decline in the demand for skilled labour. It is reasonable to assume that other factors, such as structural change in the labour market and demographic effects such as the increasing retirement of the baby boomer generation, will keep the demand for skilled labour at a high level for some time to come.

In Switzerland, the State Secretariat for Economic Affairs SECO is the federal government's center of expertise for core issues relating to economic policy. The Labor Directorate of the SECO is responsible for the Swiss unemployment insurance and public employment service. In cooperation with the cantonal offices and the regional employment centers, the unemployment insurance offers unemployed persons an adequate replacement income and ensures the rapid reintegration of unemployed into the labour market.

The close cooperation of the regional centers with the local economy is one

of the key elements of the Swiss public employment service and a crucial factor to keep unemployment levels at a low margin. The increasing shortage of skilled workers coupled with a rise in unemployment – even if it is only moderate - is one of the major challenges not only for local authorities and business but for the economy and society as a whole. A close cooperation between all stakeholders is needed to meet this challenge. An important prerequisite for suitable solutions is understanding the impact of structural change, demographic effects and trends in education and training.

The conference in Lugano is an excellent opportunity to address this topic and to exchange ideas, insights and best practices with experts from different countries. We are convinced that the expertise present at the conference in Lugano will lead to a better understanding of how we can successfully face the challenges of the future and also act as a lever to implement best practice examples from abroad. We look forward to welcoming you to this event as co-hosts, together with our partners from the Università della Svizzera Italiana (USI).

Jean-Christophe Lanzeray
Deputy Head of the Swiss Unemployment Insurance / State Secretariat for Economic Affairs (SECO)

INFORMATION ON REGISTRATION

4

Registration

The conference will be held in presence in **Lugano from the 5. - 6. September 2024 at USI**. We ask you to register upfront until the **23th August 2024.**

To fill out the **registration** you will need the following data:

- E-mail
- Name
- Surname
- Title
- Organisation
- EN RLMM Member

The conference language is English. The participation is free of charge.

As soon as the programme is finalised in all details, we will send you the **form to register for the Working Groups**. Only one selection per day will be possible.

Please be aware that the time **settings of the program are in the CET format**. You will receive the final version of the conference programme some time before the event.

We are looking forward to meet you all in September!

THE EN RLMM

The European Network on Regional Labour Market Monitoring (EN RLMM) focuses on innovative approaches for the monitoring of labour markets in regions and localities across Europe.

Through various activities involving the publishing of Anthologies and organising meetings, it seeks to further the concepts and instruments in regional and local labour market monitoring and to diffuse the common methods for research and analysis in this field.

If you have any questions concerning this year's conference, please contact

Dr Moreno Baruffini
Phone: +41 (0) 58 666 4116
E-mail: moreno.baruffini@usi.ch

Dr Dorit Griga
Phone: +41 58 46 11911
